It is suggested that

1. Church Street School be abandoned. This means bringing to the Park School the kindergarten of using room 8. 34
2. Bringing over Grade I, consisting of 54 and combining this with 12 pupils from Avondale Grade I and making two classes. This involves another teacher.

The present condition of the Avondale Grade I room is such that the room is greatly overcrowded.

3. Transfer from Avondale the Second Grade of 48 to one of the rooms on the first floor in the Park bringing the teacher with it and combine with the Second Grade of 41 in the Park School.

If these changes ~~be~~ ^{not} made there will be in the Park School eight unoccupied rooms on the first and second floors. If they are made four of these eight will be used.

It will be possible in transferring the 12 pupils of the Avondale First Grade so to select them that it will be quite as convenient to come to the Park School as to the Avondale.

The saving affected by the abandonment of the Church Street School would be the Janitor's fees of \$150., heating and light of \$60., and extras, cleaning etc., amounting to \$25., or for the year about \$235. which would be half the salary of a new teacher. The net cost of the transfer would be about \$65.

Mr. Meredith suggests that if the employ of a new teacher be deferred beyond the first of November the State would allow less than \$100. instead of \$200. for a teacher.
