

RENTAL OF SCHOOL BUILDINGS

Nutley's public school buildings and grounds are now being used almost every day and night by its citizens for recreational, educational, and other civic activities.

A survey of the 1,642 approved activities for which the school buildings were used during the 1970-1971 school year indicates the following:

There were 854 occasions the schools were used free of charge: 684 of these were used for scouting activities at a cost to the Board of Education for custodial services of \$2,635.76; 63 times by Parent-Teacher Associations at a cost of \$1,040.00; 101 times for student activities, primarily at the high school level, at a cost of \$902.55; three times by the Nutley Police Department; twice by the Town of Nutley Health Department; and once for a Town program on narcotics.

The total for custodial services for the above-mentioned free nights was \$4,694.49. To this should be added the cost of heat, light, and other miscellaneous expenses which were paid by the Board of Education.

The Board of Education also subsidized the Adult School which used the high school 44 evenings, and the Saturday Extension Program which used the high school 20 Saturday mornings. Other groups partially subsidized by the Board of Education used the various schools as follows:

Town Recreation Committee	275
Other Recreational Activities	339
Summer School	30
Pre-School Program	60
Summer Program for Atypical Pupils	20

The aforementioned organizations paid for custodial services only.

The schools were also opened 121 times for rentals involving civic, fraternal, service organizations, dancing schools, etc., for which the standard fees were charged.
