

NUTLEY BOARD OF EDUCATION

1990-91 Plan for Substandard Instructional Areas

- Lincoln - B-10 - This room will not be used as an instructional area once the fire-damaged areas are repaired.
- 111 - Approved as a regular classroom, will be used, if necessary, in 1991-92 as an extra kindergarten classroom.
- Washington - B-8 - Being used for first time in 1990-91 for small-group instruction (ESL and Speech). In the event that this room is needed in 1991-92 and beyond, a permanent approval request will be sought from the State. Monies for ventilation unit and any other State requirements will be budgeted if the State indicates that the room will be approvable.
- Franklin - Music Office - Used for small-group and individual music instruction. District will contact the State as to whether or not this room can be used as an instructional space if upgraded. Mechanical ventilation will be needed and can be included in a future budget if State advises the district that the room will be approvable.
- Radcliffe - Resource Room and Nurse's Office - District will be submitting plans and specifications to the State in 1990-91 to upgrade rooms. If State approves plans, projects will take place in 1990-91 and/or 1991-92 to bring these areas into compliance.
