2435.1 STUDENT RANDOM ALCOHOL AND DRUG-TESTING

POLICY STATEMENT

It is the responsibility of the Nutley Board of Education to safeguard the safety of the pupils in the schools and promote an orderly learning environment. We, therefore, must maintain that the use of drugs and unlawful possession and use of alcohol is wrong and harmful. The Board recognizes that the misuse of drugs, alcohol or steroids threatens the safety of the pupils and the orderly learning environment of the entire school community. The Board of Education is committed to the prevention of drug, alcohol and steroid abuse.

The Nutley Board of Education convened a Task Force which, in part, conducted a survey, solicited public input from the community and parents and obtained law enforcement data. This information was obtained to gain an understanding of the current drug use among students. The Board's Task Force found there was enough information of substance use/abuse by students that additional attention is warranted.

The Nutley Board of Education recognizes that the problem of illegal drugs and alcohol use presents a continuing challenge in its schools and a clear danger to the pupil population as a whole. The district's commitment to maintaining athletics and extra-curricular activities in a safe and secure environment requires a clear policy and supportive programs relating to the deterrence of substance use by pupils involved in athletics and extra-curricular activities.

Participation in athletics and extra-curricular activities is a privilege. Pupil participants, by virtue of their voluntary decision to participate in these extra-curricular and athletic activities, and because of their position as school leaders and role models in the school community, have a heightened responsibility to be drug and alcohol free. The district is committed to being proactive in ensuring the safety of all pupils participating in athletics and extra-curricular activities.

Consistent with the U.S. Supreme Court Ruling, *Board of Education of Independent School District No. 92 of Pottawatomie County et al v. Earls et al.*, 536 U.S. 822 (2002) and the New Jersey Supreme Court Ruling in *Joye v. Hunterdon Central Regional High School Board of Education*, 176 N.J. 568 (2003), the Board of Education directs the Chief School Administrator to implement and conduct a program of random drug testing of pupil participants in athletics, extra-curricular activities, pupils who have violated the district substance abuse policy, and pupils who voluntarily elect to participate in the program with parental consent. Eligibility shall apply to the entire academic year. The Principal or his/her designee shall oversee the Policy and Procedure.

Design of the program shall be consistent with the Nutley Board of Education's objectives, which are as follows:

- Promote safety;
- Deter drug use, thereby countering peer pressure which may encourage indulgence;

Sanctions and corrective action shall be designed accordingly. This policy and its implementing regulations shall be made available annually, at the beginning of the school year, to all school employees, pupils and parent(s) or legal guardian(s). No pupil shall be expelled or suspended from school as a sole result of any verified positive test conducted by the school under the Random Drug Testing Program.

This Policy shall apply to all Nutley School District students in grades **7-12** who participate in any athletics or extra-curricular activities. This Policy shall also apply to all Nutley School District students in grades **7 to 12** who voluntarily elect to participate in the program with parental consent or who have violated the district substance abuse policy.

As such, any information obtained by the Program which would identify the participant as a drug or alcohol user may be disclosed only for those purposes and under those conditions permitted by federal regulations in accordance with 42 C.F.R. - Part II. POLICY STATEMENT

The Nutley Board of Education recognizes that substance abuse presents a problem in society and is a violation of law that presents a danger to the student involved and to other students. It is the Board's responsibility to provide a safe school environment and to help our students reach their potential. To this end, the Board has developed and implemented a proactive substance abuse policy to include clear procedures and a comprehensive student assistance program (SAP). The policy and SAP focus on rewarding positive behaviors and intervening upon the negative effects of alcohol/drug usage. The school administrators, teachers and counseling staff set forth the following objectives of our substance abuse policy:

1. We shall educate our students and our school staff on substance abuse including alcohol/drug abuse and tobacco and anabolic steroids.
2. We shall intervene with any student negatively affected by substance abuse including use by a peer, family member, or self.
3. We shall provide the opportunity for students who are currently involved in substance abuse to make behavioral and attitudinal changes.
4. We shall address the use, possession and distribution of alcohol and/or drugs and/or related paraphernalia by offering clear guidelines, procedures and due process related to the use and/or possession on school property and at school activities.

DISCIPLINE

Students are prohibited from possessing, consuming, or distributing drugs or alcohol in any form while at school, in co-curricular and extra-curricular programs, on school grounds, and when attending a school-related function on or off campus. Students are further prohibited from smoking cigarettes or using other tobacco products in any form in school buildings, on any school grounds, in co-curricular and extra-curricular programs, and when attending a school-related function on or off campus.

SUBSTANCE ABUSE

In accordance with state and federal laws and regulations, students suspected of being "under the influence" shall be subject to medical examination at the parent/guardian's expense, suspension and other disciplinary measures as established by this policy.

The Board pledges its full cooperation with law enforcement officials in the conduct of their duties to maintain a drug free school zone in a cooperative agreement between the school district and Nutley Police. The Board will abide by the Memorandum of Agreement Between the School District and Law Enforcement Agencies. Students and their parent(s)/guardian(s) are advised that New Jersey laws may require additional penalties beyond school sanctions for drug-related offenses on and off school grounds in accordance with Drug Free School Zones statute. A summary of these laws and their penalties will be provided annually to students, and their parents or guardians, in a conspicuous manner.

The Board intends to use the disciplinary sanctions of this policy as a means of helping students recover from the debilitating effects of substance abuse. It is in this spirit that the development and enforcement of this policy is intended.

CIVIL IMMUNITY

Staff members are required by law to report any student suspected of being under the influence of, or having problems related to, drugs and/or alcohol through the district procedures. Staff members reporting students "in good faith" are immune from civil and criminal prosecution. No action, administrative or otherwise, shall be brought against any teaching staff member who "in good faith" reports his or her suspicion that a student is violating this policy, or who acts to enforce this policy. A standard reporting form may be used by all district staff members in identifying students in need of assessment by the Intervention and Referral Services (I&RS) Team. Staff suspecting a student of being under the influence in school will transmit any reporting forms/checklists immediately to the building principal.

Confidentiality of information obtained by Student Assistance Counselors (SAC's), Child Study Team and I&RS Team members and administrators shall be protected in accordance with state and federal laws and regulation. Students will be informed annually of the regulations protecting the confidentiality of records pertaining to drug and alcohol interventions. They will also be notified annually of the District's procedures in regard to voluntary disclosures. Notification shall be through student/parent handbooks or any other means deemed appropriate by the Superintendent.

PART III – STUDENTS RETURNING FROM TREATMENT: **VOLUNTARY & POLICY ORDERED**

- A. Any student who attends treatment following an alcohol or drug suspension must comply with the re-admission criteria described in Part II.
1. Students attending a treatment program causing an extended absence will be readmitted only upon receipt of a written recommendation from the treatment program.
- The absences will be considered in the same manner as other “chronically ill” students, and shall not be treated in a manner different from any other student returning from hospitalization, with the exception of after care arrangements for policy ordered treatment.
- B. The best way to maintain sobriety is through participation in an AA/NA or other step program “design”; therefore, the school will make every effort to assist students in complying with their after care plan and recommendations.
1. After care programs will include issues of peer pressure, maintaining sobriety, behavior and attitudes contributing to “slips”, relapse, and other personal issues.
 2. Student participation in school programs that conflict with after care treatment will be at the discretion of the treatment agency.
 3. Students not participating in treatment program after care will be required to meet with the I&RS Team to determine an alternative after care program.
- C. Concerns about the student’s regression to drugs or alcohol shall be dealt with in the same manner as any other student suspected of being under the influence, outlined elsewhere in these procedures.

Students who demonstrate, through a Confidential Behavioral Checklist, a deteriorating condition that may be alcohol or drug related, will have an on-site pre-assessment conducted; the results will be shared with the parent/guardian.

 2. Students' lockers may be randomly searched under the direction of the Superintendent, or the Superintendent's designee.
 3. These searches shall follow the guidelines established for New Jersey Schools in the Administrative Code, but shall include the following guidelines:
 - a. "Reasonable suspicion" shall mean suspicion based on statements of concern by staff or students, and physical condition and behavior of a suspicious nature that indicates possible substance use or possession.
 - b. Searches of a "cursory" nature may be conducted, including a visual inspection and request that students empty pockets, purses and other belongings.
 4. The Superintendent may exercise the option of conducting general searches of the school buildings, school lockers, and school premises and property, by use of drug-sniffing canines as deemed appropriate and in accordance with state and federal law.

Students refusing to cooperate in searches will have their parent/guardian contacted to inform them of the student's refusal to cooperate, stressing possible police involvement in the incident.

When a student is found to be in possession of any quantity of illegal substances, drugs, or alcohol on school grounds or at a school activity or on a school-provided mode of transportation or school-related trip, the administrator in charge will contact the Nutley Police or other agency to investigate.
 - 1. When illegal substances are found, it shall be the responsibility of the Police to complete their normal reporting procedures, and any other legal actions, such as complaints, depending on the quantity of substances.
 - 2. It shall be the responsibility of the Nutley Police or law enforcement agency to determine whether the quantity and/or circumstances will be considered “possession” or “distribution”, in accordance with New Jersey Law or in consultation with the County Prosecutor’s Office.
- B. Students found “in possession” will follow the same criteria as outlined in Part II of this procedure.
 - 1. However, the Board of Education maintains the right to conduct a suspension or expulsion hearing on any student found selling, possessing or distributing illegal substances, as outlined in this Policy.
 - 2. Students charged with distribution, or intent to distribute drugs or when a student is neither treatment appropriate, nor tests positive on a urine screen, will receive the following additional disciplinary measures:
 - a. Out-of-School Suspension for a maximum of 21 days, not to exceed the second monthly Board of Education meeting without Board action;
 - b. Appear at an automatic expulsion hearing before the Board of Education to determine to what extent the student is a danger to him/herself and/or the school community;
 - c. If reinstated, a monitoring program and monthly reports to the Board of Education shall be developed by the I&RS Team in consultation with the Student Assistance Counselor;

Based on reports from local police, if the school building principal, in consultation with the I&RS Team, determines that the student's continued attendance presents danger to the health and safety of other students in the building, the offending student shall:

- 1. Be suspended immediately, for a number of days not to exceed the second monthly Board of Education meeting;
- 2. **RECEIVE HOMEBOUND INSTRUCTION WITHIN FIVE SCHOOL DAYS OF SUSPENSION;**

PART VI – ROLE OF THE CHILD STUDY TEAM

- A. The Child Study Team shall not accept referrals of new cases where the cause for evaluation indicates possible use of alcohol or other drugs, until the I & RS and/or Student Assistance Counselor(s) have been consulted.

The referred student will be accepted **only** after parent/guardian has provided documentation that a urine screen and/or evaluation at an approved agency has been completed at the expense of the parent/guardian, in order to “rule-out” the possibility that alcohol or drug involvement is a primary cause for the referral. The results of chemical screens and/or evaluations shall be made available to the Child Study Team.

- B. Building Child Study Teams shall consult with the I&RS Team and the Student Assistance Counselor(s), for both classified and non-classified students referred, for “technical assistance” on substance abuse and related symptoms.

The Child Study Team, upon request of the I&RS Team or Board of Education, will review the current placement of a classified student on extended Alternative Instruction and consider other alternative educational programs.

PART VIII – STUDENT USE OR SUSPECTED USE OF SUBSTANCES OFF-CAMPUS

A. The Nutley School District must identify and assist students whose drug or alcohol use or other behavior is of concern, regardless of when it occurs.

1. Any expression of concern about parties or substance-related incidents involving students will be handled in the following manner:

- a. The staff member will ensure that any information deemed reliable will be passed on to the building administrator and the SAC whose expertise may facilitate parent cooperation in a manner which ensures the confidentiality of each student and/or family;
- b. A member of the I&RS Team may call a student in to express concern about “use” when a parent/guardian or fellow student issues a “statement of concern”, or to discuss parent/guardian chemical dependency.

The contents of this meeting will remain confidential; however, this will not protect the student from future sanctions under existing procedures of this Policy.

2. The I&RS Team may conduct a Confidential Behavioral Health Assessment of the student in order to determine to what extent chemical use may be affecting performance or behavior.

Students who appear to be “in imminent danger” may require formal or informal intervention by the I&RS Team to include the SAC. In such cases, no Release of Information Form by the student is required.

APPENDIX III

SUMMARY FOR PARENTS

Regarding Immediate Action Sequence

1. When it appears that a student may be under the influence of a chemical substance, the requirements of New Jersey State Law (N.J.S.A. 18A:40A-12) and the Nutley School District Substance Abuse Policy are as follows:
 - a. Arrangements for the immediate medical examination and diagnostic chemical screen by one of the following:
 1. Immedicenter (Board of Education pays)
 2. Your private physician (Parent must pay)
 3. Emergency room of the nearest hospital or medical center

****If the parent/guardian is not able to have the student in transit within two hours of notification or if the parent/guardian is unable to be located, the student will be taken to the emergency room of the nearest hospital or medical center or to the Immedicenter by a school administrator for the required examination.**

 - b. Parent(s)/guardian(s) who do not comply with the requirement for an immediate medical examination of a student will have a report of alleged neglect filed with the Division of Youth and Family Services. In addition, such noncompliance will be considered a positive diagnosis and confirmation of under the influence, and will result in immediate suspension and further actions as noted in the administrative procedures of the District Policy.
2. Without confirmation of being under the influence, student may return to school the next day. Confirmation may include admission or clinical observation as well as medical screening.
3. If and when use, possession, purchase, transfer or sale is confirmed, disciplinary action will be taken and the local police may be notified.
4. When use, et. al, is confirmed, the student is not allowed to return to school without seeing the physician again and presenting a written physician's report to the principal

certifying that substance abuse no longer interferes with the student's physical and mental ability to perform in school.

5. When use, et. al, is confirmed, the student is not allowed to return to school until the student presents an evaluation from an approved treatment center or appropriately licensed and certified counselor. If some form of treatment is recommended, students must present a written document of participation in order to attend school.
6. When use, et. al, is confirmed, the student is not allowed to return to school until a "Release of Information" form signed by the parent(s)/guardian(s) and student is received from an approved treatment center or counselor so the school and out-of-school professional can communicate without breaching confidentiality.

In addition to this page, you may receive the following:
