Acceptable Use Of Computer Network(S) Computers And Resources By Support Staff Members

4321- ACCEPTABLE USE OF COMPUTER NETWORK(S)/ COMPUTERS AND RESOURCES BY SUPPORT STAFF MEMBERS

The school district provides computer equipment, computer services, and Internet access to its pupils and staff for educational purposes only. The purpose of providing technology resources is to improve learning and teaching through research, teacher training, collaboration, dissemination and the use of global communication resources. The “system administrators” referred to herein as employees of the school district who administer the school district computer network(s)/computers and the system administrators reserve the right to monitor all activity on network(s)/computer facilities/computers.

Because of the complex association between so many government agencies and computer network(s)/computers, support staff members must adhere to strict regulations. Regulations are provided here so that support staff members are aware of their responsibilities. The school district may modify these regulations at any time by publishing modified regulations on the network(s) and elsewhere.

Support staff members are responsible for good behavior on computer network(s)/computers. Communications on the computer network(s)/computers are often public in nature. Policies and Regulations governing support staff members behavior and communications apply. The school district’s network(s), Internet access and computers are provided to conduct research and as a tool for instruction and to communicate with others. Access to computer network services/computers is given to support staff members who are expected to act in a considerate, responsible and professional manner. Access is a privilege, not a right. Access entails responsibility. Individual users of the district computer network(s)/computers are responsible for their behavior and communications over the computer network(s)/computers. It is presumed that users will comply with district standards. Beyond the clarification of such standards, the district is not responsible for the actions of individuals utilizing the computer network(s)/computers who violate the policies and regulations of the Board.

Computer network(s)/computer storage areas shall be treated in the same manner as other school storage facilities. Computer network(s)/computer administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private. Users should expect all files stored on district servers will be available for review by district and/or school administrators as appropriate.

Users agree not to publish on or over the system any information which violates or infringes upon the rights of any other person or any information which would be abusive, profane or sexually offensive to an average person, or which without the approval of the system administrators, contains any advertising or any solicitation of other members to use goods or services. The user agrees not to use the facilities and capabilities of the system to conduct any non-school related business or solicit the performance of any activity which is prohibited by law or is non-educational.

While most of the content available on the Internet is innocuous and much of it a valuable educational resource, some objectionable material exists. The Board will provide pupil access to Internet resources only in supervised environments and has taken steps to lock out objectionable areas to the extent possible, but potential dangers remain. Support staff members are advised that some systems may contain defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, or otherwise illegal material and are to supervise pupil use of computers and the Internet. The Board and the system administrators do not condone the use of such materials and do not permit usage of such materials in the school environment. Support staff members should discipline pupils knowingly bringing such materials into the school environment in accordance with Board policies and regulations and inform pupils that such activities may result in termination of such pupil's accounts on the computer network(s) and their independent use of computers.

On-line Conduct

Any action by a support staff member or other user of the school district's computer network(s)/computers that is determined by a system administrator to constitute an inappropriate use of computer network(s)/computers resources or to improperly restrict or inhibit other members from using and enjoying those resources is strictly prohibited and may result in limitation on or termination of an offending member's account and other action in compliance with the Board policy and regulation. The user specifically agrees not to submit, publish, or display any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, or otherwise illegal material; nor shall a user encourage the use, sale, or distribution of controlled substances. Transmission of material, information or software in violation of any local, state or federal law is also prohibited and is a breach of the Consent and Waiver Agreement.

Users agree to indemnify the Nutley School District and the system administrators for any losses, costs, or damages, including reasonable attorney's fees incurred by the Board relating to, or arising out of any breach of this section by the user.

No support staff member may install, upload, or download software without the expressed consent of the system administrator. Any software having the purpose of damaging other members' accounts on the school district computer network(s)/computers (e.g., computer viruses) is specifically prohibited. The system administrators, at their sole discretion, reserve the rights to refuse posting of files and to remove files. The system administrators, at their sole discretion, further reserve the right to immediately limit usage or terminate the account or take other action consistent with the Board's policies and regulations of a member who misuses the software libraries.

Acceptable Use Of Computer Network(S) Computers And Resources By Support Staff Members

Security on any computer system is a high priority, especially when the system involves many users. If a member feels that he/she can identify a security problem on the computer network(s), the member must notify a system administrator. The member should not inform individuals other than the system administrators or other designated members of the school district staff of a security problem. Professional staff may allow individuals who are not members to access the system through the staff personal account as long as the staff person does not disclose the password of the account to the individuals and understands that the staff person assumes responsibility for the actions of individuals using his/her account. Members may not otherwise allow others to use their account and password. Passwords to the system should not be easily guessable by others, nor should they be words which could be found in a dictionary. Attempts to log in to the system using either another member's account or as a system administrator will result in termination of the account. Members should immediately notify a system administrator if a password is lost or stolen, or if they have reason to believe that someone has obtained unauthorized access to their account. Any member identified as a security risk will have limitations placed on usage of the computer network(s)/computers or may be terminated as a user and be subject to other disciplinary action.

Vandalism

Vandalism will result in cancellation of system privileges and other disciplinary measures. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the system, or any of the agencies or other network(s)/computers that are connected to the Internet backbone or of doing intentional damage to hardware or software on the system. This includes, but is not limited to, the uploading or creation of computer viruses.

Printing

The printing facilities of the computer network(s)/computers should be used judiciously. Printing for other than educational, or school related purposes is prohibited.

Violations

Violations of the Acceptable Use of Computer Network(s)/Computers and Resources may result in a loss of access as well as other disciplinary or legal action. Disciplinary action shall be taken as indicated in Policy and Regulation No. 4321, Support Staff Members, Acceptable Use of Computer Network(s)/Computers and

- b. At the beginning of the following contract year, the total number of hours accumulated will be divided by the number of hours, or average number of hours, to be worked in each contract day. The result constitutes the number of accrued sick leave days the employee may claim when he/she has exhausted the sick leave days available in the current contract year.
- c. When a part-time employee, continuously employed in the district, is employed full-time, his/her accumulated sick leave hours will be divided by the number of hours in a full working day, and the dividend will be multiplied by the number of days he/she worked each week as a part-time employee. The product will be divided by five, the number of days in a full-time week. The resulting number, rounded up to the next full day, represents the number of accrued sick leave days in the employee's sick leave bank.

H. Records

- 1. The personnel file of each person employed by this district will include an accurate record of the employee's attendance in accordance with Policy No. 4211.
- 2. Each employee's attendance record will record the reason for any absence.
- 3. The attendance record will include the accumulated unused sick leave in the employee's sick leave bank.
