[See **POLICY ALERT Nos. 113, 181 and 193**]

The preparation of each member for the performance of Board of Education duties is essential to the proper functioning of the Board. The Board encourages each new Board member in the acquisition of information about school district governance, the separate functions of the Board and the Superintendent, the operations of the district, and Board procedures.

The Board directs that the Board Secretary or designee provide each new member access to and/or a copy of the Board of Education Bylaw and Policy Manual, the manual of administrative regulations, each negotiated agreement, the current budget statement and audit report, the most recent long range facilities plan, and such other materials as deemed appropriate by the Superintendent.

Each new Board member will be invited and is encouraged to meet and discuss the responsibilities and authority of a Board member, Board functions, and Board policies and procedures with the Board President (if available), the Superintendent, and the School Business Administrator/Board Secretary.

Each newly elected or appointed Board member shall complete during the first year of the member's first term a training program to be prepared and offered by the New Jersey School Boards Association, in consultation with the New Jersey Association of School Administrators, the New Jersey Principals and Supervisors Association, and the Department of Education, regarding the skills and knowledge necessary to serve as a Board member.

The training program shall include information regarding the school district monitoring system established pursuant to P.L. 2005, c. 235, the New Jersey Quality Single Accountability Continuum, and the five key components of school district effectiveness on which school districts are evaluated under the monitoring system: instruction and program; personnel; fiscal management; operations; and governance.

The Board member shall complete a training program on school district governance in each of the subsequent two years of the Board member's first term.

Within one year after each re-election or re-appointment to the Board of Education, the Board member shall complete an advanced training program to be prepared and offered by the New Jersey School Boards Association. This advanced training program shall include information on relevant changes to New Jersey school law and other information deemed appropriate to enable the Board member to serve more effectively.

The New Jersey School Boards Association shall examine options for providing training programs to Board members through alternative methods such as on-line or other distance learning media or through regional-based training.

Within one year after being newly elected or appointed or being re-elected or re-appointed to the Board of Education, a Board member shall complete a training program on harassment, intimidation, and bullying in schools, including a school district's responsibilities under P.L. 2002, c.83 (C.18A:37-13 et seq.). A Board member shall be required to complete the program only once. Training on harassment, intimidation, and bullying in schools shall be provided by the New Jersey School Boards Association, in consultation with recognized experts in school bullying from a cross section of academia, child advocacy organizations, nonprofit organizations, professional associations, and government agencies.

The Board of Education recognizes that communicating electronically (e.g. e-mail, social network site, text messaging, instant messaging) is an efficient and convenient way to exchange information on school matters. 2340 FIELD TRIPS

The Board of Education recognizes that field trips properly planned are an educationally sound and important part of the program of the schools that can supplement and enrich student development by providing learning experiences in an environment outside the schools.

For purposes of this policy, a field trip shall be defined as any planned travel activity that supplements or enriches the educational program.

All such field trips shall be initiated and planned by the teacher and shall be submitted to the building principal and Superintendent of Schools for approval. The cost of field trips may be borne in total or in part by the Board of Education.

Field trips that are planned to keep pupils out of the district overnight or longer require final approval of the Board of Education.

The Board does not endorse, support, or assume liability in any way for any staff member of this district who takes pupils on trips not approved by the Board or Superintendent in accordance with this policy and shall not be liable for the welfare of pupils who travel on such trips. No staff member may solicit pupils of this district for such trips within the facilities or on the school grounds of this district unless approved by the Board of Education.

Participation in approved field trips is not a right and may be denied to any pupil who has demonstrated disregard for school rules. No pupil unable to pay the cost assessed for an educational day trip shall be denied participation.

A pupil who violates rules or disregards the authority of supervisors on a field trip significantly endangers the safety of other pupils and may be summarily dismissed from the trip. The teaching staff member in charge will make arrangements for the dismissed pupil's transportation to home or school as appropriate. The cost of any such transportation will be borne by the parents or legal guardians of the pupil. The Board reserves the right to take further disciplinary measures in accordance with Policy No. 5600.

The Superintendent shall prepare regulations for the operation of field trips that insure that the safety and well-being of pupils shall be protected at all times; that parental permission is sought and obtained before any pupil may be removed from the school for a field trip; that each field trip is properly planned,

7230 GIFTS, GRANTS, AND DONATIONS

The Board of Education accepts its responsibility to provide from public funds sufficient supplies and equipment for an effective instructional program. The Board recognizes, however, that from time to time individuals or organizations in the community may wish to contribute additional supplies or equipment to enhance or extend the instructional program.

The Board may accept by resolution duly passed at a public meeting any gift or grant of land, with or without improvement, and of money or other personal property, except that the Superintendent may accept on behalf of the Board any such gift less than \$100 in value. Grants of land are subject to the appropriate legal limitations and approvals.

The Board reserves the right to refuse to accept any gift that does not contribute toward the achievement of the goals of this district or any gift the ownership of which would tend to deplete the resources of the district. The Board shall not provide public moneys for the purchase of any school property on a matching fund basis.

Any gift accepted by the Board shall become the property of the Board, may not be returned without the approval of the Board, and shall be subject to the same controls and regulations as are other properties of the Board. The Board shall be responsible for the maintenance of any gift it accepts, subject to any joint agreement with another governmental body.

The Board will respect the intent of the donor in its use of a gift, but reserves the right to utilize any gift it accepts in the best interests of the students and the educational program of the district. In no case shall acceptance of a gift be considered to be an endorsement by the Board of a commercial product or business enterprise or institution of learning.

Funds shall not be solicited online, using social media or an internet site by members or employees of the Board of Education, without prior approval from the Board of Education. Approvals will include purpose and threshold of online fundraising.

The Superintendent shall:

1. Counsel potential donors on the appropriateness of contemplated gifts and encourage such donors to choose as gifts supplies or equipment not likely to be purchased with public funds;

2. Encourage individuals and organizations considering a contribution to the schools to consult with the Principal or Superintendent before appropriating funds to that end;
3. Report to the Board all gifts that have been accepted on behalf of the Board;
4. Acknowledge the receipt of any gift accepted by the Board; and
5. Prepare fitting means for recognizing or memorializing gifts to the school district.

**R 3321 ACCEPTABLE USE OF COMPUTER NETWORK(S)/COMPUTERS AND RESOURCES BY TEACHING
STAFF MEMBERS**

[See POLICY ALERT No. 145]

The school district provides computer equipment, computer services, and Internet access to its students and staff for educational purposes only. The purpose of providing technology resources is to improve learning and teaching through research, teacher training, collaboration, dissemination and the use of global communication resources. The “system administrators” referred to herein as employees of the school district who administer the school district computer network(s)/computers and the system administrators reserve the right to monitor all activity on network(s)/computer facilities/computers.

Because of the complex association between so many government agencies and computer network(s)/computers, teaching staff members must adhere to strict regulations. Regulations are provided here so that teaching staff members are aware of their responsibilities. The school district may modify these regulations at any time by publishing modified regulations on the network(s) and elsewhere.

Teaching staff members are responsible for good behavior on computer network(s)/computers. Communications on the computer network(s)/computers are often public in nature. Policies and Regulations governing teaching staff members behavior and communications apply. The school district’s network(s), Internet access and computers are provided to conduct research and as a tool for instruction and to communicate with others. Access to computer network services/computers is given to teaching staff members who are expected to act in a considerate, responsible and professional manner. Access is a privilege, not a right. Access entails responsibility. Individual users of the district computer network(s)/computers are responsible for their behavior and communications over the computer network(s)/computers. It is presumed that users will comply with district standards. Beyond the clarification of such standards, the district is not responsible for the actions of individuals utilizing the computer network(s)/computers who violate the policies and regulations of the Board.

Computer network(s)/computer storage areas shall be treated in the same manner as other school storage facilities. Computer network(s)/computer administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private.

Users should expect all files stored on district servers will be available for review by the _____ and/or school administrators.

Within reasonable limits, freedom of speech and access to information will be honored. During school, teaching staff members will guide students toward appropriate materials.

Behaviors including but not limited to the following are prohibited:

1. Sending or displaying offensive messages or pictures;
2. Using obscene language;
3. Harassing, insulting or attacking others;
4. Damaging, degrading or disrupting computers, computer systems or computer network(s)/computers;
5. Violating copyright laws;
6. Using another's password;
7. Trespassing in another's folders, work or files;
8. Intentionally wasting limited resources;
9. Employing the network(s)/computers for commercial purposes;
10. Engaging in other activities which do not advance the educational purposes for which computer network(s)/computers are provided;
11. Stealing data or other intellectual projects;
12. Forging electronic mail messages;
13. Posting anonymous messages;

14. Accessing school computers for other than educational purposes; and/or
15. Any other unethical, unacceptable, illegal and/or inappropriate activity.

Information Content and Uses of the System

Users agree not to publish on or over the system any information which violates or infringes upon the rights of any other person or any information which would be abusive, profane or sexually offensive to an average person, or which without the approval of the system administrators, contains any advertising or any solicitation of other members to use goods or services. The user agrees not to use the facilities and capabilities of the system to conduct any non-school related business or solicit the performance of any activity which is prohibited by law or is non-educational.

While most of the content available on the Internet is innocuous and much of it a valuable educational resource, some objectionable material exists. The Board will provide student access to Internet resources only in supervised environments and has taken steps to lock out objectionable areas to the extent possible, but potential dangers remain. Teaching staff members are advised that some systems may contain defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, or otherwise illegal material and are to supervise student use of computers and the Internet. The Board and the system administrators do not condone the use of such materials and do not permit usage of such materials in the school environment. Teaching staff members should discipline students knowingly bringing such materials into the school environment in accordance with Board policies and regulations and inform students that such activities may result in termination of such students' accounts on the computer network(s) and their independent use of computers.

On-line Conduct

Any action by a teaching staff member or other user of the school district's computer network(s)/computers that is determined by a system administrator to constitute an inappropriate use of computer network(s)/computers resources or to improperly restrict or inhibit other members from using and enjoying those resources is strictly prohibited and may result in limitation on or termination of an offending member's account and other action in compliance with the Board policy and regulation. The user specifically agrees not to submit, publish, or display any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening,

racially offensive, or otherwise illegal material; nor shall a user encourage the use, sale, or distribution of controlled substances. Transmission of material, information or software in violation of any local, State or Federal law is also prohibited and is a breach of the Consent and Waiver Agreement.

Users agree to indemnify the Nutley School District and the system administrators for any losses, costs, or damages, including reasonable attorneys' fees incurred by the Board relating to, or arising out of any breach of this section by the user.

Computer network(s)/computer resources are to be used by the user for his/her educational use only; commercial uses are strictly prohibited.

Software Libraries on the Network(s)

Software libraries on the network(s) are provided to teaching staff members as an educational resource. No teaching staff member may install, upload, or download software without the expressed consent of the system administrator. Any software having the purpose of damaging other members' accounts on the school district computer network(s)/computers (e.g., computer viruses) is specifically prohibited. The system administrators, at their sole discretion, reserve the rights to refuse posting of files and to remove files. The system administrators, at their sole discretion, further reserve the right to immediately limit usage or terminate the account or take other action consistent with the Board's policies and regulations of a member who misuses the software libraries.

Copyrighted Material

Copyrighted material must not be placed on any system connected to the network(s)/computers without the author's specific written permission. Only the owner(s) or persons they specifically authorize may upload copyrighted material to the system. Members may download copyrighted material for their own use in accordance with Policy and Regulation Nos. 2531, Copying Copyrighted Materials. Any member may also noncommercially redistribute a copyrighted program with the expressed written permission of the owner or authorized person. Permission must be specified in the document, on the system, or must be obtained directly from the author.

Public Posting Areas (Message Boards/Usenet Groups)

Usenet and Internet Relay Chat Room messages are posted from systems connected to the Internet around the world and the school district system administrators have no control of the content of messages posted from these other systems. To best utilize system resources, the system administrators will determine which Usenet groups are most applicable to the educational needs of the school district and will carry these groups on the school district computer network(s). The system administrators or the school administration, at their sole discretion, may remove messages posted locally that are deemed to be unacceptable or in violation of the Board policies and regulations. The system administrators or the school administration, at their sole discretion, further reserve the right to immediately terminate the account of a member who misuses the message boards or Usenet groups.

Real-time, Interactive, Communication Areas

The system administrators, at their sole discretion, reserve the right to monitor and immediately limit the use of the computer network(s)/computers or terminate the account of a member who misuses real-time conference features (talk/chat/Internet relay chat) etc.

Electronic Mail

Electronic mail ("E-mail") is an electronic message sent by or to a member in correspondence with another person having Internet mail access. All messages sent and received on the school district computer network(s) must have an educational or administrative purpose and are subject to review. A sender of an E-mail message should expect the E-mail messages will be reviewed by the system administrators or the school administration. Messages received by the system are retained on the system until deleted by the recipient or for a maximum of thirty calendar days. A canceled account will not retain its E-mail. Members are expected to remove old messages within thirty calendar days or the system administrators may remove such messages. The system administrators may inspect the contents of E-mail sent by one member to an addressee, or disclose such contents to other than the sender or a recipient when required to do so by the Board policy, regulation or other laws and regulations of the State and Federal governments. The Board reserves the right to cooperate fully with local, State, or Federal officials in any investigation concerning or relating to any E-mail transmitted on the school district computer network(s) or computers.

Disk Usage

The system administrators reserve the right to set quotas for disk usage on the system. A member who exceeds his/her quota of disk space will be advised to delete files to return to compliance with predetermined quotas. A member who remains in noncompliance of disk space quotas after seven school days of notification will have their files removed by a system administrator.

Security

Security on any computer system is a high priority, especially when the system involves many users. If a member feels that he/she can identify a security problem on the computer network(s), the member must notify a system administrator. The member should not inform individuals other than the system administrators or other designated members of the school district staff of a security problem. Professional staff may allow individuals who are not members to access the system through the staff personal account as long as the staff person does not disclose the password of the account to the individuals and understands that the staff person assumes responsibility for the actions of individuals using his/her account. Members may not otherwise allow others to use their account and password. Passwords to the system should not be easily guessable by others, nor should they be words which could be found in a dictionary. Attempts to log in to the system using either another member's account or as a system administrator will result in termination of the account. Members should immediately notify a system administrator if a password is lost or stolen, or if they have reason to believe that someone has obtained unauthorized access to their account. Any member identified as a security risk will have limitations placed on usage of the computer network(s)/computers or may be terminated as a user and be subject to other disciplinary action.

Vandalism

Vandalism will result in cancellation of system privileges and other disciplinary measures. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the system, or any of the agencies or other network(s)/computers that are connected to the Internet backbone or of doing intentional damage to hardware or software on the system. This includes, but is not limited to, the uploading or creation of computer viruses.

Printing

The printing facilities of the computer network(s)/computers should be used judiciously. Printing for other than educational, or school related purposes is prohibited.

Violations

Violations of the Acceptable Use of Computer Network(s)/Computers and Resources may result in a loss of access as well as other disciplinary or legal action. Disciplinary action shall be taken as indicated in Policy and Regulation No. 3321, Teaching Staff Members, Acceptable Use of Computer Network(s)/Computers and Resources, Policy No. 3150, Teaching Staff Member Discipline, as well as possible legal action and reports to the legal authorities and entities.

Determination of Consequences for Violations

The particular consequences for violations of this policy shall be determined by the Systems Manager (**individual responsible for computer network(s)/computers**) in matters relating to the use of computer network(s)/computers and by the Superintendent or designee in matters of discipline or employee suspension or actions by the authorities are the appropriate course of action.

1. Use of Computer Network(s)/Computers only under direct supervision;
2. Suspension of network privileges;
3. Revocation of network privileges;

4321- ACCEPTABLE USE OF COMPUTER NETWORK(S)/ COMPUTERS AND RESOURCES BY SUPPORT STAFF MEMBERS

The school district provides computer equipment, computer services, and Internet access to its pupils and staff for educational purposes only. The purpose of providing technology resources is to improve learning and teaching through research, teacher training, collaboration, dissemination and the use of global communication resources. The “system administrators” referred to herein as employees of the school district who administer the school district computer network(s)/computers and the system administrators reserve the right to monitor all activity on network(s)/computer facilities/computers.

Because of the complex association between so many government agencies and computer network(s)/computers, support staff members must adhere to strict regulations. Regulations are provided here so that support staff members are aware of their responsibilities. The school district may modify these regulations at any time by publishing modified regulations on the network(s) and elsewhere.

Support staff members are responsible for good behavior on computer network(s)/computers. Communications on the computer network(s)/computers are often public in nature. Policies and Regulations governing support staff members behavior and communications apply. The school district’s network(s), Internet access and computers are provided to conduct research and as a tool for instruction and to communicate with others. Access to computer network services/computers is given to support staff members who are expected to act in a considerate, responsible and professional manner. Access is a privilege, not a right. Access entails responsibility. Individual users of the district computer network(s)/computers are responsible for their behavior and communications over the computer network(s)/computers. It is presumed that users will comply with district standards. Beyond the clarification of such standards, the district is not responsible for the actions of individuals utilizing the computer network(s)/computers who violate the policies and regulations of the Board.

Computer network(s)/computer storage areas shall be treated in the same manner as other school storage facilities. Computer network(s)/computer administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private. Users should expect all files stored on district servers will be available for review by district and/or school administrators as appropriate.

Acceptable Use Of Computer Network(S) Computers And Resources By Support Staff Members

Users agree not to publish on or over the system any information which violates or infringes upon the rights of any other person or any information which would be abusive, profane or sexually offensive to an average person, or which without the approval of the system administrators, contains any advertising or any solicitation of other members to use goods or services. The user agrees not to use the facilities and capabilities of the system to conduct any non-school related business or solicit the performance of any activity which is prohibited by law or is non-educational.

While most of the content available on the Internet is innocuous and much of it a valuable educational resource, some objectionable material exists. The Board will provide pupil access to Internet resources only in supervised environments and has taken steps to lock out objectionable areas to the extent possible, but potential dangers remain. Support staff members are advised that some systems may contain defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, or otherwise illegal material and are to supervise pupil use of computers and the Internet. The Board and the system administrators do not condone the use of such materials and do not permit usage of such materials in the school environment. Support staff members should discipline pupils knowingly bringing such materials into the school environment in accordance with Board policies and regulations and inform pupils that such activities may result in termination of such pupil's accounts on the computer network(s) and their independent use of computers.

On-line Conduct

Any action by a support staff member or other user of the school district's computer network(s)/computers that is determined by a system administrator to constitute an inappropriate use of computer network(s)/computers resources or to improperly restrict or inhibit other members from using and enjoying those resources is strictly prohibited and may result in limitation on or termination of an offending member's account and other action in compliance with the Board policy and regulation. The user specifically agrees not to submit, publish, or display any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, or otherwise illegal material; nor shall a user encourage the use, sale, or distribution of controlled substances. Transmission of material, information or software in violation of any local, state or federal law is also prohibited and is a breach of the Consent and Waiver Agreement.

Users agree to indemnify the Nutley School District and the system administrators for any losses, costs, or damages, including reasonable attorney's fees incurred by the Board relating to, or arising out of any breach of this section by the user.

No support staff member may install, upload, or download software without the expressed consent of the system administrator. Any software having the purpose of damaging other members' accounts on the school district computer network(s)/computers (e.g., computer viruses) is specifically prohibited. The system administrators, at their sole discretion, reserve the rights to refuse posting of files and to remove files. The system administrators, at their sole discretion, further reserve the right to immediately limit usage or terminate the account or take other action consistent with the Board's policies and regulations of a member who misuses the software libraries.

Copyrighted Material

Copyrighted material must not be placed on any system connected to the network(s)/computers without the author's specific written permission. Only the owner(s) or persons they specifically authorize may upload copyrighted material to the system. Members may download copyrighted material for their own use in accordance with Policy and Regulation Nos. 2531, Copying Copyrighted Materials. Any member may also noncommercially redistribute a copyrighted program with the expressed written permission of the owner or authorized person. Permission must be specified in the document, on the system, or must be obtained directly from the author.

Public Posting Areas (Message Boards/Usenet Groups)

Usenet and Internet Relay Chat Room messages are posted from systems connected to the Internet around the world and the school district system administrators have no control of the content of messages posted from these other systems. To best utilize system resources, the system administrators will determine which Usenet groups are most applicable to the educational needs of the school district and will carry these groups on the school district computer network(s). The system administrators or the school administration, at their sole discretion, may remove messages posted locally that are deemed to be unacceptable or in violation of the Board policies and regulations. The system administrators or the school administration, at their sole discretion, further reserve

Messages received by the system are retained on the system until deleted by the recipient or for a maximum of thirty calendar days. A canceled account will not retain its E-mail. Members are expected to remove old messages within thirty calendar days or the system administrators may remove such messages. The system administrators may inspect the contents of E-mail sent by one member to an addressee, or disclose such contents to other than the sender or a recipient when required to do so by the Board policy, regulation or other laws and regulations of the State and Federal governments. Disk Usage

The system administrators reserve the right to set quotas for disk usage on the system. A member who exceeds his/her quota of disk space will be advised to delete files to return to compliance with predetermined quotas. A member who remains in noncompliance of disk space quotas after seven school days of notification will have their files removed by a system administrator.

Security

REGULATION

R 4321/Page 6 of 7

Acceptable Use Of Computer Network(S) Computers And Resources By Support Staff Members

Security on any computer system is a high priority, especially when the system involves many users. If a member feels that he/she can identify a security problem on the computer network(s), the member must notify a system administrator. The member should not inform individuals other than the system administrators or other designated members of the school district staff of a security problem. Professional staff may allow individuals who are not members to access the system through the staff personal account as long as the staff person does not disclose the password of the account to the individuals and understands that the staff person assumes responsibility for the actions of individuals using his/her account. Members may not otherwise allow others to use their account and password. Passwords to the system should not be easily guessable by others, nor should they be words which could be found in a dictionary. Attempts to log in to the system using either another member's account or as a system administrator will result in termination of the account. Members should immediately notify a system administrator if a password is lost or stolen, or if they have reason to believe that someone has obtained unauthorized access to their account. Any member identified as a security risk will have limitations placed on usage of the computer network(s)/computers or may be terminated as a user and be subject to other disciplinary action.

Vandalism

Vandalism will result in cancellation of system privileges and other disciplinary measures. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the system, or any of the agencies or other network(s)/computers that are connected to the Internet backbone or of doing intentional damage to hardware or software on the system. This includes, but is not limited to, the uploading or creation of computer viruses.

Printing

The printing facilities of the computer network(s)/computers should be used judiciously. Printing for other than educational, or school related purposes is prohibited.

Violations

Violations of the Acceptable Use of Computer Network(s)/Computers and Resources may result in a loss of access as well as other disciplinary or legal action. Disciplinary action shall be taken as indicated in Policy and Regulation No. 4321, Support Staff Members, Acceptable Use of Computer Network(s)/Computers and

Resources, Policy No. 4150, Support Staff Member Discipline, as well as possible legal action and reports to the legal authorities and entities.

Determination of Consequences for Violations

The particular consequences for violations of this policy shall be determined by the Systems Manager in matters relating to the use of computer network(s)/computers and by the Superintendent or designee in matters of discipline or employee suspension or actions by the authorities deemed to be the appropriate course of action.

Individuals violating this policy shall be subject to the consequences as indicated in Policy No. 2361 and other appropriate discipline which includes but are not limited to:

1. Use of Computer Network(s)/Computers only under direct supervision;
