Regular meetings of the Board of Education are held on the fourth Monday of each month at 8:00 P. M. in the Board Room, High School.

THE PRESIDENT'S FOREWORD

During the past year the school authorities have faced the problem of keeping up Nutley's standards of education on resources reduced to meet the exigencies of the times. The effect of necessary economies is already apparent, but it will be even more marked during the coming year. We hope, nevertheless, that the fundamentals of our school system will not be impaired, and we shall be able to regain any lost ground as soon as the present need for drastic economy is over.

Raising the kindergarten age from four to five years, and dropping manual training below the Junior School, are sacrifices to present necessities which can be remedied under happier conditions. The real difficulty lies in our rapidly growing High School attendance, and our inability to meet this increase with proper facilities. There is danger that overcrowding in the High School and the increased pupil load placed upon our teachers will seriously affect our standing among high schools, and lose Nutley its place on the approved high school list.

The purpose of this annual report is to give the people of Nutley detailed information about our schools. The report deserves careful study because it deals with our most vital problem, the welfare of our children.

MARY P. AMES

Pres. Board of Education

SUPERVISING PRINCIPAL'S REPORT

For the Year Ending June 23, 1933

To the Board of Education,
Nutley, New Jersey.

I take pleasure in submitting my thirteenth annual report of the public schools, as follows:

School Calendar for the Year 1932-33

September 6, Tuesday	Teachers' conference
September 7, Wednesday	First term begins
January 31, Tuesday	First term ends
February 1, Wednesday	Second term begins
June 23, Friday	Second term ends

Holidays

October 12, Wednesday	Columbus Day
November 24, Thursday	Thanksgiving Day
November 25, Friday	Thanksgiving Recess
December 23, Friday, to January 2, Monday	Christmas Recess
February 22, Wednesday	Washington's Birthday
April 14, Friday, to April 21, Friday	Easter Recess
May 30, Tuesday	Decoration Day
Number of teaching days — 190.

The past year presented many opportunities for helpfulness on the part of our teachers. We gave more than \$20,000 voluntarily to unemployment relief. This amount, plus the amount contributed by other school and town employees, was the salvation of our unemployed. Without it there would have been much more suffering than was the case. In addition to the money contributed, hundreds of pieces of clothing and pairs of shoes were collected and distributed to the needy, also food, especially milk, in large quantities. It was a difficult year for us, but we are thankful for the opportunity of helping. Our teachers took the challenge seriously. The morale has been kept high. Our people should be proud of a body of men and women who are willing to work much harder for less pay and do it cheerfully. We are devoutly hoping that the next year will give work to our children's parents, that they may have not only the necessities of life but some of the so-called luxuries.

Our elementary schools continued to decrease in numbers to some extent but our high school increased 150. The high school building is now about 400 over capacity. The only solution for the coming year is larger classes and a longer day. The longer day is not especially hurtful, but there is a reasonable limit to class size and teacher load. We cannot under present conditions attempt to give our high school pupils what is demanded of a modern high school. The following statistics are of interest:

	1920-21	1932-33
Number in high school	251	1129
Graduated	31	171
Total graduated 1921 to 1933		1037
Number in junior school	317	853
Graduated	101	363
Total graduated 1921 to 1933		2541

Attendance Officer's Report

Absentees investigated	1466
Cases of truancy	48
Average monthly attendance:	
Continuation School	16
Boys' Vocational School	30
Girls' Vocational School	12
Working papers issued:	
Boys	16
Girls	15
Revoked	2
Recorder's Court cases	32
The great majority of the court cases involved petty larceny, such as stealing bicycles and other articles.	

Transfers:

Supervising Principal

MEDICAL INSPECTION DEPARTMENT REPORT

For Year Ending June 23, 1933

The general condition and health of the children was normal until the end of the first term, when mumps became very prevalent in all the schools. This together with the usual number of contagious and follow-up calls occasioned considerable outside work. Home visits are made for many purposes. The nurse must be ever alert to conditions in the school, home and community which endanger child welfare. Treatment cases for minor ailments increased to some extent over the previous year. Treatment by nurses is given only under special circumstances. We offer first aid in cases of accident or sudden illness at school, and treatment of minor injuries and illnesses for which a family physician would not be employed but which interfere with school attendance. Five year old children are prepared for school registration by health examinations by the school physician. Defects are followed up by the Parent-Teacher Association of Park School, who contribute very materially in service to various health activities. A general practice now in our schools is the immunization against diphtheria. This year 290 were immunized. Each year a check-up is made on the children.

General Summary

Number of physical examinations made by school physicians	4,920
Parents were duly notified of physical defects of their children as disclosed by these examinations as follows:	
Enlarged tonsils	944
Defective teeth	792
Defective vision	19
Defective hearing	5
Heart condition	65

Cases corrected through efforts of nurses:	
Throat operations	187
Teeth treated at clinic	1,061
Glasses fitted	10
Daily minor treatment cases	970
Home visits	770
Regular inspection of classes daily.
