STUDENT GROUPING

## 2310 STUDENT GROUPING

The Board of Education believes that each student should be provided with the instruction that will best suit his/her intellectual, physical, emotional, and social capabilities. The Board authorizes the Superintendent to develop a schedule and class organization that will provide for the placement of students in instructional groups that will offer them the greatest educational benefit.

The grouping of students should be flexible and should take into consideration the age, ability, past academic performance, emotional needs, physical maturity, and interests of each student.
