2312 CLASS SIZE

The Board of Education directs that the number of students assigned to any one class be governed by considerations of instructional quality and economy of operation.

A desired range for the minimum and maximum number of students that shall be assigned to regular classes shall be established by the superintendent.

A class with low enrollment may be canceled, unless elimination of the class will impair the school curriculum or deprive students of an essential unit in a sequential instructional program necessary for graduation, college application, employment, or other postgraduate use.

The Superintendent shall prepare guidelines for class size. Maximum limits shall take into account the subject matter, type of instruction, ability of students, availability of aides, and use of special facilities and equipment and may be waived to accommodate the demands of a temporary increase in enrollment.
